25X1A

TO: [REDACTED]

FROM: [REDACTED]

SUBJECT: City Plans, JANIS

1. The attached memorandum from the Chief of the Map Division is referred to you with my strong support.

[REDACTED]

3. It would be highly desirable to establish this division of work for JANIS at this time, not merely because of the logic of the situation but primarily because of the necessity of the situation. You are familiar with the difficulty faced by the Cartography Section in endeavoring to complete its work on the JANIS during the coming months. If our personnel resources were ample we would not object to doing work simply because it would logically fall to others, but it would be unfortunate if we should fail to fulfill our responsibility on strategic and specialty maps for JANIS because we were burdened with city maps and plans which may properly be regarded as tactical in nature.
